Translated from Russian

In connection with paragraphs 11 and 13 of resolution 73/205 of 20 December 2018

During the period 2017-2019, there were no reports of serious violations in Belarus against missions and representatives of foreign states or international intergovernmental organizations. In addition, there were no reports of the commission against foreign installations of Belarus of violations of the law which were significant and were not investigated by the law enforcement agencies of the host countries.

In connection with paragraph 12 of resolution 71/145 of 13 December 2016

The authorities of Belarus take seriously their duty to take all appropriate action to protect the premises of diplomatic missions against any intrusion or damage and to prevent any attack on the person of the staff of those missions.

Belarus, in implementing all applicable norms of international law governing diplomatic and consular relations and relations with international organizations, is assiduous in taking all measures to protect missions and their staff.

We separately note that Belarus is introducing new practices on an ongoing basis to ensure the security of missions. For example, the protection of diplomatic missions is increased when, on foreign countries' election days, their premises serve as polling stations, and also when national receptions are held. Additional security measures are put in place when missions report the possibility of wrongful acts against them.
